

ABSTRACT

THERE, IS THIS PIECE OF QUIET LAND.

IT IS THE PLACE WHERE IT HOLDS BOTH FUTURE AND HISTORY. IT WAS ONCE WATER, AND SUBSEQUENTLY BEEN FILLED AS LAND. THE GOOD WISHED OF THE HUMAN AMBITION, AND THE GOOD WILL OF CONSERVING THE HISTORY.

IT IS A PLACE THAT HAS SO MUCH TO TELL, YET IS ONLY CONTAINING WITHIN THE LAND ITSELF. THE LOCATION, THE FACTORIES, THEY LOOK AS HUMBLE AS THEY ARE, BUT ARE PEOPLE AWARE THAT THEY ARE THE ACTUAL ONES CONTRIBUTING TO A MORE SUSTAINABLE ENVIRONMENT.

THE SITE NEEDS TO SPEAK.

THE INSTALLATION TAKES INSPIRATION FROM THE NATURE.

NATURE IS NEVER AN INVADER. LIFE GROWS AND DEVELOPS NATURALLY, JUST LIKE WHAT PEOPLE WOULD HAVE EXPECTED IT TO TURN INTO.

SPARKLING. THIS IS GOING TO BE THE PRIMARY IMPRESSION OF THE INSTALLATION FROM AFAR, OF THE FUTURE OF THE WORLD WITH CLEAN ENERGY.

THE THOUGHT

THE TOPIC TALKS ABOUT 3 ELEMENTS, PEOPLE, ENERGY, AND NATURE.

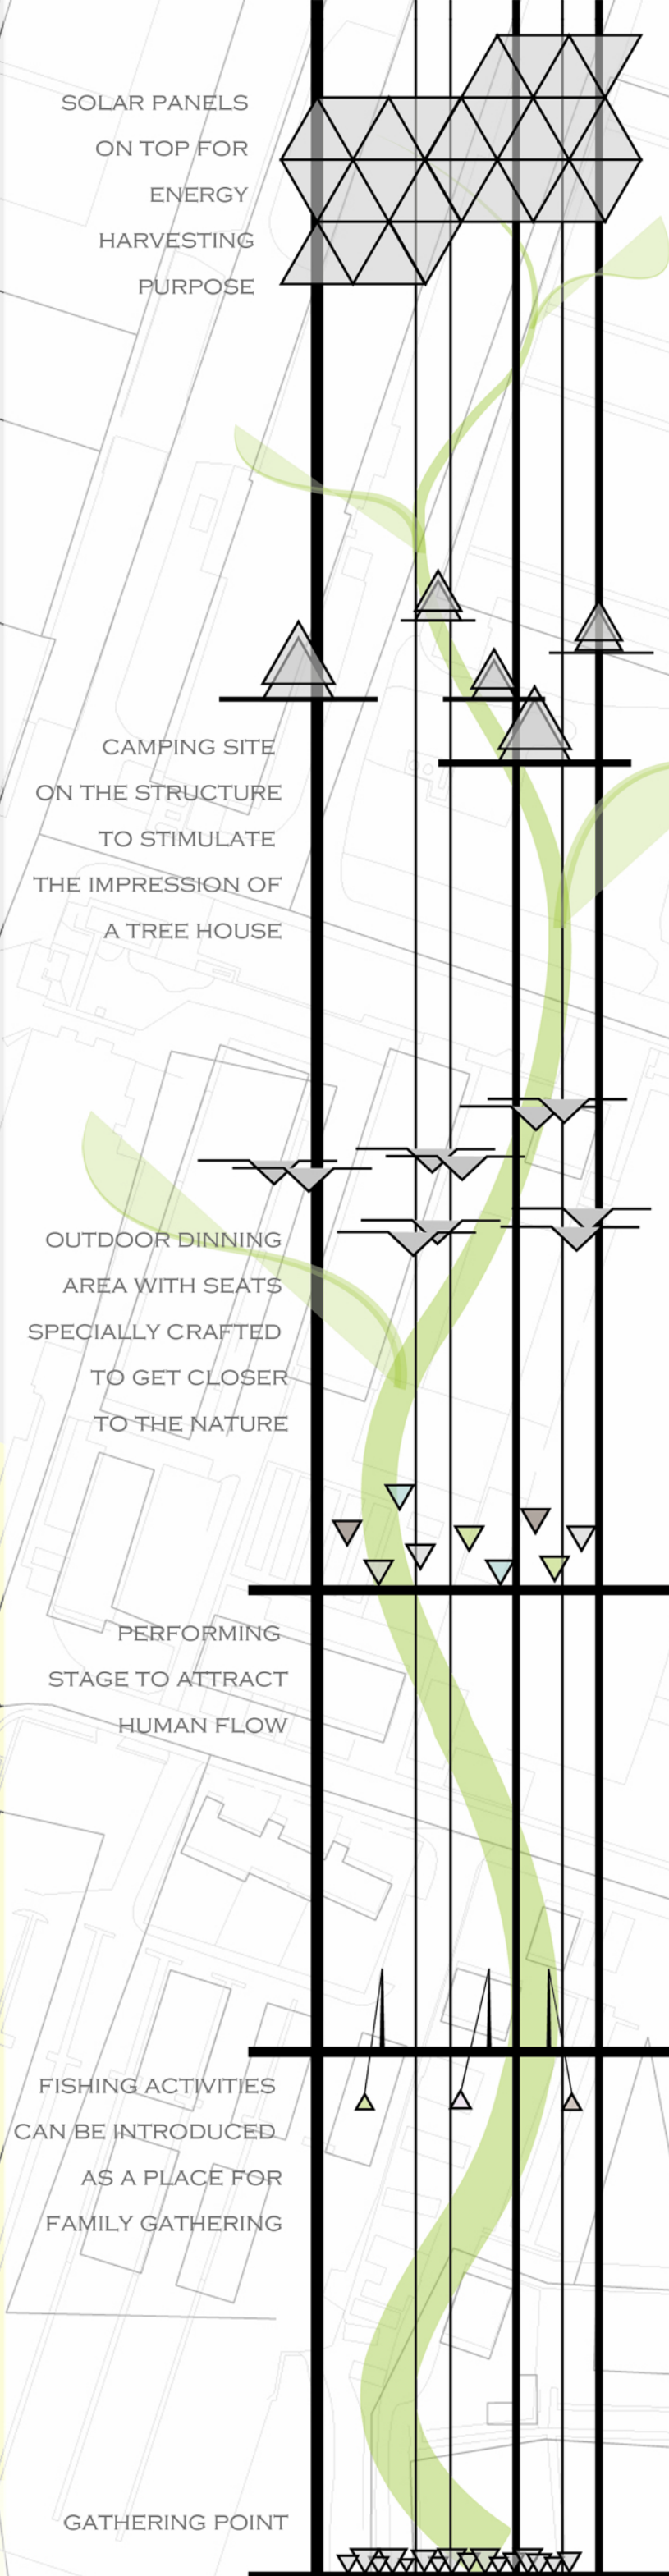

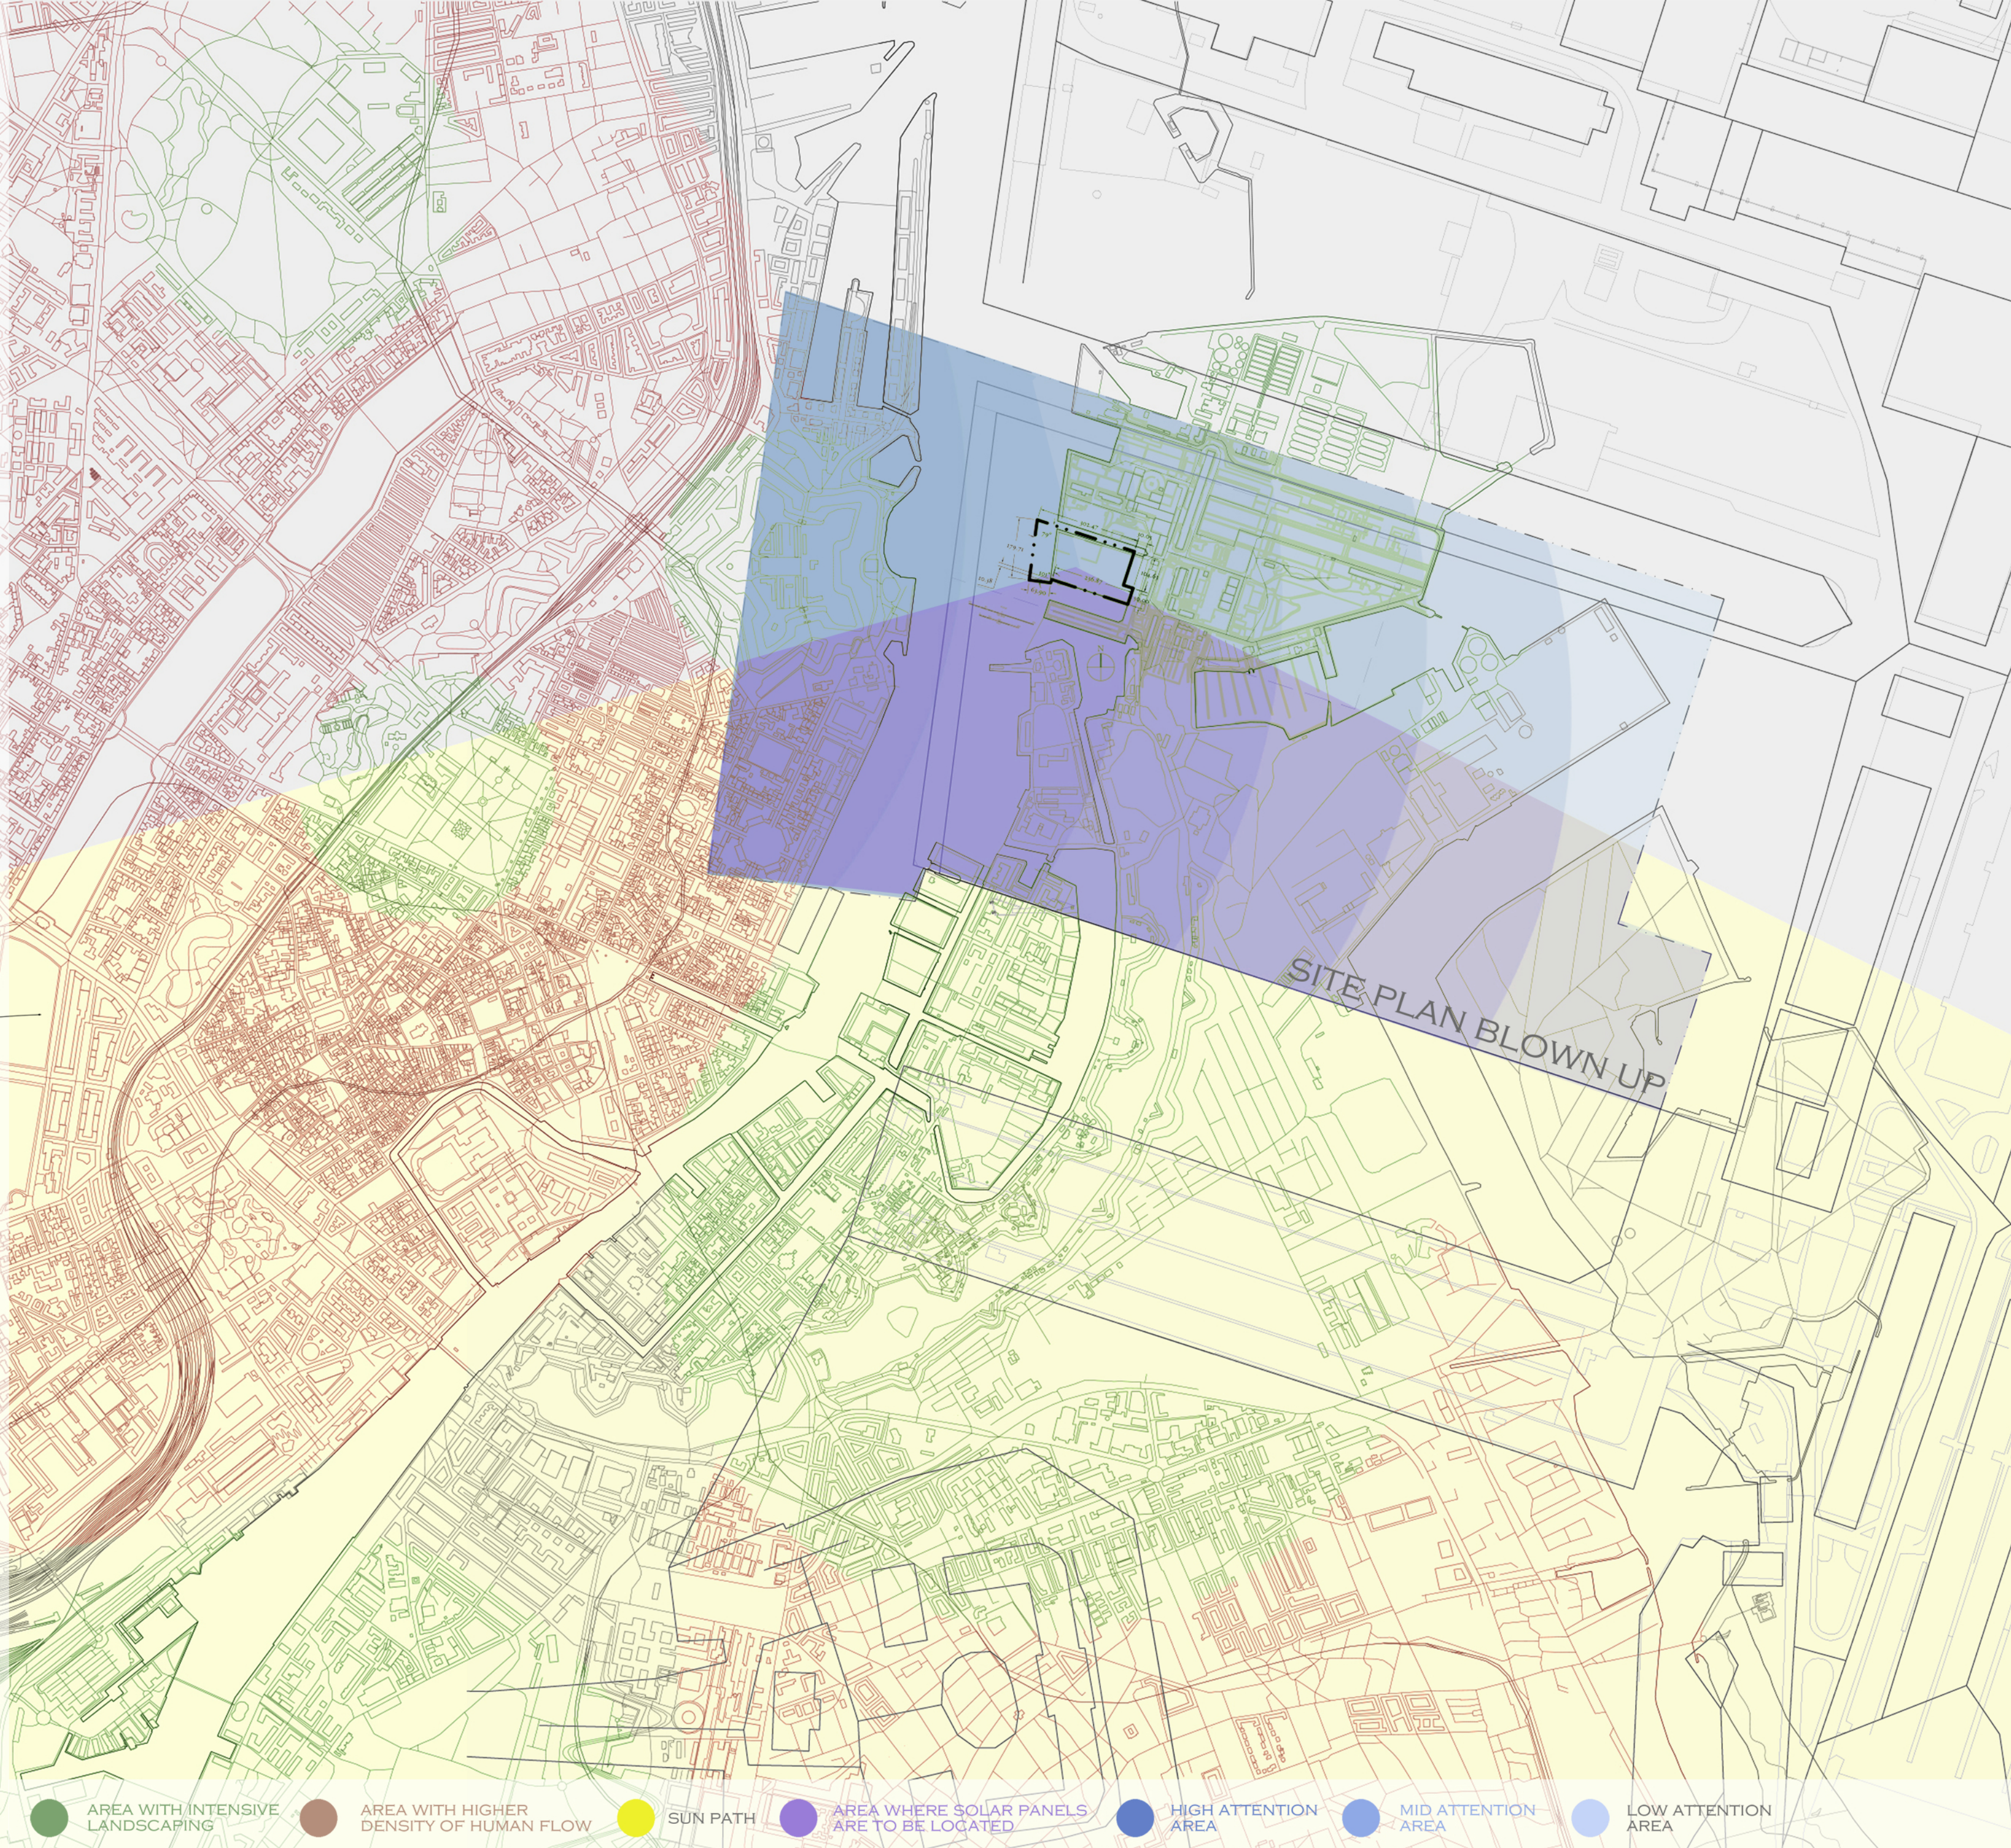

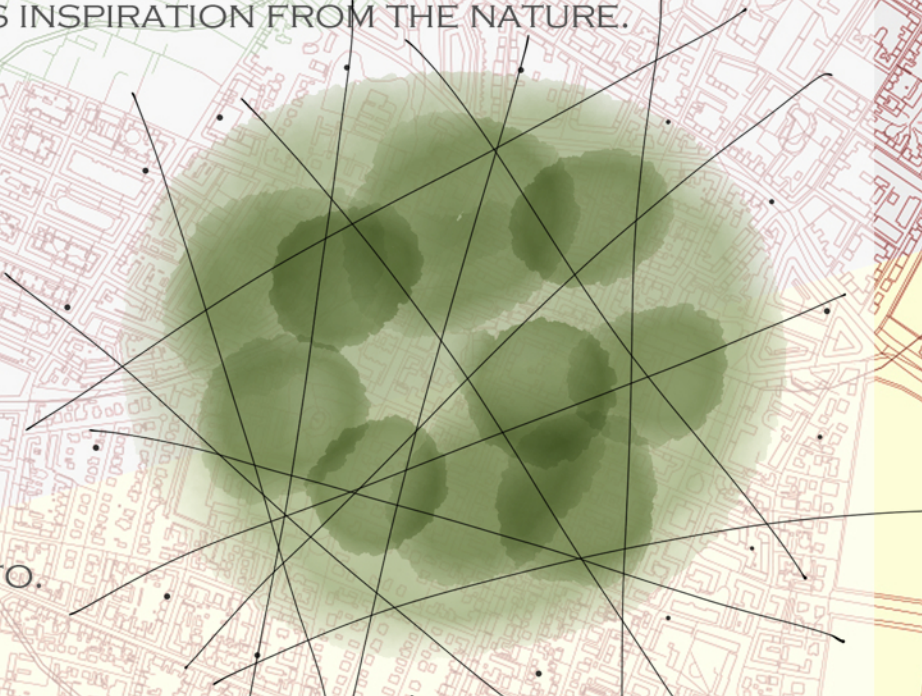

THESE THREE ARE LINKED IN ALL WAYS.

PEOPLE STAYS ON THE TOP, AS WE CONSUME AND TAKE FROM BOTH ENERGY AND NATURE.

ENERGY USED TO BE OBTAINED FROM NATURE ENTIRELY. OUR INTELLIGENCE ALLOWS US TO RESEARCH AND LOOK FOR NEW FORMS OF ENERGY RESOURCES.

NATURE BEING THE ONE THAT ALWAYS GIVES, HAS BEEN RAISING CONCERNS IN MANY PARTS OF THE WORLD.

THUS, THIS IS HOPEFULLY WHERE THE BALANCE BEGINS, OF THE TRIANGULAR RELATIONSHIP BETWEEN HUMAN, NATURE AND ENERGY.

FUNCTIONS & STRATEGIES

THE INSTALLATION IS TO SERVE AS A SMALL COMMUNITY, WHICH GATHERS PEOPLE TO ENJOY THE INSTALLATION.

THE FOCUS OF THIS PROPOSAL IS ON RELATIONSHIP.

RELATIONSHIP WITH THE PAST

AS THE SITE ITSELF CONTAINS HISTORY, BRINGING INDIVIDUALS WITH FOND MEMORIES OF THE FORMAL SHIPYARD IS MEANINGFUL.

THE IMPRESSION OF THE SHIPYARD WITH EXPOSED STEEL STRUCTURES COULD BE DONE TO ACHIEVE THIS, TO LET PEOPLE KNOW THAT THE SITE ITSELF, AND US AS DESIGNERS, DO RESPECT THE SITE, THE HISTORY AS WELL AS THE CULTURE.

RELATIONSHIP WITH PEOPLE

AS TECHNOLOGY GETS MORE DEVELOPED, WE HAVE BEEN THINKING TOO MUCH ON OUR RELATIONSHIP WITH NATURE, BUT NOT BETWEEN DIFFERENT INDIVIDUALS. I HOPE, THAT THIS PROPOSAL IS ABLE TO ENCOURAGE MORE COMMUNICATION AND PHYSICAL INTERACTION.

- CAMPING SITE
- PERFORMANCE STAGE
- FISHING ACTIVITIES
- DINNING AREA
- GATHERING POINT

RELATIONSHIP BETWEEN ENERGY AND NATURE.

WHERE ENERGY HARVESTED POWERS THE IRRIGATION SYSTEM. THIS WOULD BE ABLE TO SHOW AND RAISE AWARENESS THAT IT IS TIME TO USE TECHNOLOGY TO BRING LIFE BACK TO NATURE.
